6.75" Dia x 10.25"H (238 Cubic Inches)

The Passages® Cornstarch Urns are made from durable and environmentally-friendly cornstarch. They feature a secure “snap lock” closing mechanism that permanently closes the urn. The Cornstarch Urns can be kept at home, or placed in a cemetery niche or columbarium since they will not biodegrade or deteriorate until buried. When buried in earth, the urn will biodegrade completely over time. (The time taken to biodegrade will vary depending on local soil conditions)

Cornstarch Urns are hand painted and each includes a biodegradable bag for the cremated remains to be placed in prior to closing the urn. Each urn comes in a convenient carry box that can be used for discreet and secure transportation.

Cornstarch Urns are TSA compliant.
