FABRIC SHROUDS

Passages shrouds are suitable for burial or cremation and are 100% biodegradable. Shrouds are an eco-friendly and unique alternative to clothing for use in a Wicker Casket or Willow Carrier. To simplify the movement and transport of a shrouded body, we recommend using our Willow Carrier with all shrouded burials or cremations.

Willow Carrier

BAMBOO SHROUD WITHOUT HANDLES

Large: 112"L x 73"W

X Large: 118"L x 78"W

A simple wrap with decorative ribbons.

Has no handles or pocket for backboard, and must be used with willow carrier, casket or coffin.

BAMBOO SHROUD WITH HANDLES

Large: 112"L x 73"W

X Large: 118"L x 78"W

Sewn pocket accommodates backboard (*board not included*) to support the body. Includes eight jute handles for lifting and carrying.

Lift-weight tested to 300 lbs.

This shroud can also be used on its own. A sewn-in pouch allows a rigid board to be inserted under the shroud to provide support for the body if a casket or willow carrier is not being used.

The board is not included with the shroud, but can usually be purchased at a local hardware store. Ask for a 1/2" board to be cut between 5' and 6'5" long (depending on body length) and 22" wide.

Weight tested – 300 lbs (lift only)
