HIMALAYAN ROCK SALT URNS

The Passages Salt Urns are individually hand-crafted by skilled artisans from solid blocks of Himalayan Rock Salt. The salt deposits in this region are over 250 million years old and are believed to be the purest on earth.

As a result of the hand-made and natural qualities of the Passages Salt Urns, each is unique in both color and finish. The urns will dissolve within 4 hours, when placed in water. Minor cracking and chips occur naturally, adding to the character of these beautiful urns.
