Memento Urns

The Memento Urn for biodegradable water burial allows families to create a unique, meaningful and participatory ceremony by placing personal notes, written by family and friends, into the urn prior to placing it at sea.

This urn is crafted by hand on antique moulds from non-toxic, recycled food grade paper and is hand painted using water-based paints. It will float briefly before sinking and biodegrades naturally over time.

The Memento Urn is packaged in an eco-friendly box that is discreet and convenient for transporting the urn. It can be recycled once used. A donation is made in memory of the deceased to an ocean conservation organization dedicated to protecting our oceans for generations to come.

Twenty handmade paper note cards are included with each urn.

15”L x 10”W x 5.5”H (275 Cubic Inches)
