

PASSAGES®
Embracing Change

The Natural Choice® MEMORIAL TREE PROGRAM

Creating new memories and living memorials, the Memorial Tree Program can make a positive impact during an otherwise difficult time. As part of its Memorial Tree Program, Passages® has partnered with nonprofit organizations dedicated to planting trees. These relationships allow us to offer your family a Memorial Tree certificate with the purchase of any adult casket featured in this catalog. Simply follow the instructions on the certificate to select a tree suited to your region. The sapling will be shipped directly to you in 4–6 weeks, free of charge.

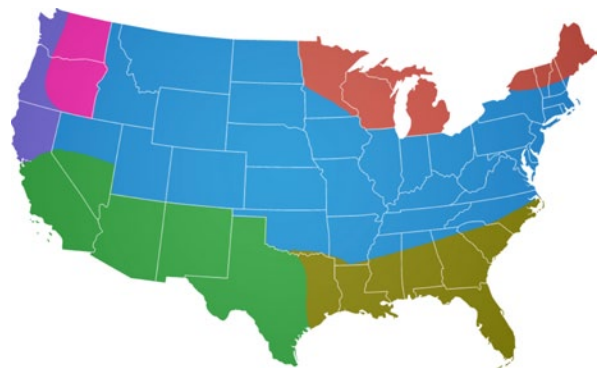

Certificates are available for purchase separately and are the perfect companion to any biodegradable or permanent urn.

Ask your funeral director for additional details or visit www.passagesinternational.com/memorial-tree.

Trees come packaged in a 14" recyclable plastic tube with detailed planting instructions and are guaranteed for one year.
